The response received 15 December 2005 has been made of record. Claims 1-12 are pending.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

This rejection is maintained for reasons of record. Applicant has argued that the recitation of a reaction product of 3 moles of tetramethylxylene diisocyanate with 1 mole of trimethylol propane is a disclosure of a polyisocyanate which is a resin. It remains unclear to the examiner that such a reaction product is a resin.

Applicant has argued that with a particular selection of resins in claim 4, the compatible resin may be omitted. While this may or may not be true, the language remains indefinite to the examiner.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
